The Republican party has nothing be ashamed of in the record of Speaker H. G. Rollins. He was conceded to be fair and impartial in all his rulings and was one of the ablest members in the House. For this the Deming Tribune is responsible: It is reported that Richard Gird, of San Bernardino county, proposed to donate the Chino ranch to the state and erect thereon a state industrial school at his own expense. The ranch embraces 37,000 acres and has upon it 10,000 cattle and 500 mules and horses. The gift, if made, will reach the magnificent value of nearly \$1,000,000.

Petty thieving is again rife in this city. The complaints of the good housewife over the loss of bread, milk and meat left by baker, butcher and milkman, are many and frequent. In whatever place said articles be left if they are comatable by an outsider the thieves generally manage to get away with them. No one particular part of the town seems to suffer alone inasmuch as the complaint is almost universal.

Daring Theft.

Mr. E. E. Olcott, superintendent of the St. Helena mine at Las Delicias, Sonora, arrived in this city recently. He subsequently visited the Record office, and from him it was learned that on the 3d of the present month the company forwarded to their agent at Hermosillo a bar of gold bullion, valued at \$13,000, by the hands of their confidential messenger, one J. The CITIZEN extends its simpathies to Hon. J. R. Jeffords and J. C. Jeffords of this city, who received the sad news of the sudden death of their father at Marysville, Miss., yesterday. Judge Elza Jeffords was born near Ironton Lawrence county, Ohio, May 23, 1826, consequently he only lacked a few days of being 59 years old. Deceased received a good common-school education and subsequently removed to Portsmouth, Ohio, where he served an apprenticeship in the clerk's office, read law and was admitted to practice in 1847, soon after becoming of age. The unexpected development of such rich mineral deposits as exist in the Black Diamond and Monarch mines, about six miles from the city, has stimusted prospectors in the search for prop erties adjacent to town. The above named claims now possess considerable value and are daily appreciating. Auother good discovery has recently been made in a southeasterly direction, about twenty miles from the court house and very close to the railroad. The three arties owning this claim are working it nd have already taken out considerable ore that averages over tifty per cent lead and forty ounces of silver to the top The ledge is now about six feet wide and the ore body is constantly increasing in width and richness. They have med it the Pleasant Hill mine, and are nfident that they possess a good bonnza. This mine, like many others now being opened, has been walked over by rospectors for years and no one has ctore dreamed of driving a pick into its rich treasures. Shipments of the ore will soon be made to Benson and to Pueblo for tests of its working qualities.

The Commercial Masquerade.

From the general interest that is being nanifested in society circles over the oming masquerade ball to be given by the Commercial Club in their rooms or the 9th of April next, it is evident that the affair is going to be immensely popular, and that the personification characters is going to embrace a wide range. Many of the ladies purposing to participate have ordered character cosumes from the east. Others again have sent westward hoping there to be better uited. A number of gentlemen taking their cues from the ladies, have done likewise. It is the intention of the management to sell but a limited number of ckets sufficient only to defray the renisite expenses, and as this amount as almost been sold it is very probable hat many will be disappointed. Of the maining tickets, it has been decided sell to the first comers. A word to the wise is sufficient.
